PROFILE

I am a career shifter with both backend and frontend skills in Javascript and PHP. I also have nine (9) years of combined experience in curriculum development, training design, and teaching.

EDUCATION

Tuitt Philippines, Kamias, QC — Full Stack Web Development Course, March 2019

University of the Philippines, Diliman, QC — MAEd - Curriculum Studies, Thesis

University of the Philippines, Diliman, QC — BEEd - Special Education, April 2008,
Magna Cum Laude

RELEVANT SKILLS

Frontend — HTML 5, CSS, Sass, Bootstrap, Materialize, Javascript, and jQuery

Backend — PHP 7.2 and Laravel 5.7

Database — Linux, MySQL, and Sequel Pro

Text Editors — Sublime Text, Visual Studio Code, and PHP Storm

Others — Git, Linux & Chrome Dev Tools, and Heroku

PROJECTS

1. Sonore — a static website that I developed in five days using HTML, CSS, and Bootstrap.
2. Mamaroo — a multi-vendor e-commerce website that I developed for a month using Bootstrap, procedural PHP and Javascript. Its notable features include lots of AJAX, PHPMailer, Stripe Payments, and the use of PHP Data Object (PDO).
3. Blend.io — an online learning tool that I developed in two weeks using Materialize and Laravel. I also studied and used TinyMCE, a WYSIWYG HTML editor to allow users to develop dynamic content.
